Welcome Brothers* in search of light... To Open Light Church!

Will this be your first time praying with all? If so, then welcome brothers to the Open Light Church. The Open Light Church is unlike others—it doesn't exist in physical life—there is no congregation! There are no rituals, bells, cathedrals, mass, choir, communion, sermons, songs, hymns, schools. Sunday remains a sabbath day. Where many churches gather once-a-week our church *meets* daily. We don't *congregate* except with our consciousness, to acknowledge *His* light within us, every day. By praying, blessing each other, expressing gratitude, being thankful, we grow with Him & others. In doing the hard inner work, that leads to raising our level of consciousness, His truth is revealed. And in His revelation is the profound realization: Light is *All* that *Is*, what we are made of, we're it!

* 'Brothers' defined as "a fellow human being" by the New Oxford American Dictionary, not specifically male.

How does it work?

It's simple: Every morning, while the sun's rising, before starting your day: Be still, pray with God. It only takes a few to 20 mins, similar time as a short jog or workout, to stay *fit* in spiritual health. During this time, you will be in communion with God, and only Him, for He *IS* in us all as the light! What's a prayer to recite? Watch His "Good Morning Prayer" daily: <https://youtu.be/IDkPGjPXew0>

Note: If you hear voices, they're not His. Have trouble quieting your mind, anxiety? Practice, pray until silence.

That's too easy!

Sounds crazy, right? That's also what this author thought when he started on his spiritual journey. Turning his back on a life of substance abuse, emotional issues, a failing career, and his lost love. In the course of several years, through mystical self-healing, and considerable patience, it worked! This author learned that by true devotion, constant awareness, and daily practice, God is *revealed*.

All bless you,

Jan Michael
